The pattern should be called “14. Follower's Left to Leader's **Hook** Turn” Please note this is incorrect for the Manual as well as the DVD.

Page 65...

15. Social Step (On1) – In the Lead column, on step 15 “Circle L hand counterclockwise to lead Follower to UATL releasing R hand hold” should start on Step 14.

15. Social Step (On2) – In the Lead column, on step 13 “Circle L hand counterclockwise to lead Follower to UATL releasing R hand hold” should start on Step 12.

NOTE: Anytime Leader sends Follower into Open Break, it is important that the Leader does not push Follower back into Open Break. It is natural for the Follower to back break therefore leader must not extend L arm to push follower back. This would pertain to patterns Back Spot Turn, CBL – Open Break to Shoulder Turn, Back Roll, and Drop Hand Catch.

NOTE: The “Amount of Turn” for the Leaders Broken Left Turn is different than the Followers Broken Left Turn. An option for the Leader is he can do the Amount of Turn like the Follower which is a more advance amount of turn for Silver Level.
